

# Pin & Sleeve

## Key Product Features

*Assembles in half the time!*

16 to 125 Amps  
IP44 and IP67

### Durability

Valox body resists moisture and prevents absorption and cracking in extreme weather. Highest impact rating IK10(20J).

### Time Saving

Screwless strain relief saves assembly time.

### Protection

Nylon screw lock for added protection in securing strain relief.

### Time Saving

Neoprene onion bushing. Just pull off rings according to wire diameter.

### Time Saving

"SNAP-ON" Stainless Steel release spring. Just insert screwdriver and twist to open. Twist body to close. No screws to fumble with. On 16 to 32 Amp versions.

### Protection

Nickel plated brass terminals are standard and prevent corrosion in extreme applications. An option for competitors.

### Time Saving

Wires assemble on top side of body not around the circumference. Screws are Nickel plated steel.
